How we work

The firm follows Grant Thornton's global strategy of providing partner-led services. This means that a client service partner acts as the main coordinator to oversee the performance of each assignment. Each

client service partner is also supported by specialised service division teams working hand-in-hand with each other. This means that our clients can easily tap into our in-depth knowledge pool and can also turn to several people when needing assistance on a job performed by the firm.

Why Grant Thornton

We serve dynamic, growing companies that are on the move because we too are a dynamic, growing firm on the move. Having started out as a small practice in Taipei in 1971, we joined Grant Thornton International as a member firm in 1993, and we have branch offices in Hsinchu, Taichung and Kaohsiung, which provide geographic coverage that can meet the needs of most companies doing business in Taiwan. We understand the needs and aspirations of growing companies on a personal level, and we have over 40 years' experience helping companies achieve these aspirations in Taiwan.

In addition, experience shows that you will have a better client experience with Grant Thornton than with our competitors. We measure client satisfaction on an annual basis as part of our ISO certification program. Grant Thornton Taiwan clients continuously rank as highly satisfied. This is partly thanks to our business structure, which is designed to react quickly to our clients' needs. At Grant Thornton Taiwan, we are empowered to make decisions locally, rather than having to move issues up through a complex chain of command. This allows us to consistently provide

clients with solutions tailor-made to their circumstances and time restrictions.

Our clients

Our clients range from the world's largest publicly listed companies to small- and medium-sized privately-owned businesses. We serve clients from most major business sectors, roughly half of which are local Taiwanese companies, while the other half are multinational corporations, including Fortune 500 companies. Unlike our larger competitors who work almost exclusively with large companies and our smaller competitors who rarely work with big international organizations, the breadth of our client base has allowed us to gain valuable insight into the complexity of how different businesses operate and the variety of issues and risks they face.

Awards we've won

In Taiwan we have achieved ISO certification every year since 2010 including ISO 27001 certification in 2016. We were listed among the top firms in the "World Tax 2015" and "World Transfer Pricing 2015" guides published by the International Tax Review. In 2016 We were also named Transfer Pricing Practitioner of the Year – Taiwan by Acquisition International Magazine.

Globally, Grant Thornton was named British Accountancy's Global Firm of the Year from 2013 through 2015. We were also named as a Global Most Attractive Employer three years in a row (2014, 2015, 2016) (Univerum), as a Global Employer of the Year in 2013, 2015, and 2016 (International Accounting Bulletin) and as the Best Programme for Leadership Development in 2015 (Managing Partners' Forum Awards For Management Excellence), among others.
